Print Name & Title _____

Site Location # _____ District _____

***1 linear mile = 5280 linear feet; Applicant must total linear feet of ditch banks or fence rows of the burn site location(s) which are being requested for permit.**

General Directions for a Burn Permit Application and Permittees

- Application must be completely filled out.
- A separate application is required for each burn site location not contiguous to the location on the original application.
- An inspection of the site may be required prior to approval of this application.
- All permittees must call Environmental Services on the day that open burning is planned. If burning is allowed over a weekend, the permittee shall call Environmental Services on Friday. Burning is not allowed during any air quality advisory.

Ditch Bank /Fence Rows

- A high temperature mechanical burner is required for burning of ditch banks, canal laterals and fence rows.
- **Burning of ditch bank/fence rows is not allowed from November through February and operating hours are restricted in the permit conditions for the rest of the year.**

Land Clearance

- Burning will be limited to indigenous small trees and brush (natural scrub vegetation.)
- Trees and limbs should not exceed 6 inches in diameter.
- Piles of materials will not exceed 15 ft in diameter nor 5 ft in height.
- An on site inspection will be made before final approval to determine removal of all other materials, such as lumber, rubber, metal etc..

Tumbleweeds

- Tumbleweeds must be cut, piled and dried before burning.
- Piles will not exceed 15 ft in diameter nor 5 ft in height.
- In situations where it is not feasible to allow drying , a high temperature mechanical burner may be used to burn undried tumbleweeds.
- High temperature mechanical burners are required for burning of tumbleweeds growing along canal laterals and fence rows.

Diseased Trees/Vegetation

Permission to burn diseased trees or vegetation containing pests can only be granted with written approval of the County Agricultural Extension Agent or the State Entomologist.
